

Bring Your Own Technology @ Mount Alvernia College 2021

**WELCOME TO
*MOUNT
ALVERNIA!***

- 
- The slide features a dark teal background with decorative white circuit-like lines in the corners. These lines consist of straight paths that turn at right angles and terminate in small circles, resembling a printed circuit board layout.
- Peace prayer

Lord, make me an instrument of your **peace**,
Where there is **hatred**, let me sow **love**;
where there is **injury, pardon**;
where there is **doubt, faith**;
where there is **despair, hope**;
where there is **darkness, light**;
where there is **sadness, joy**;

O Divine Master, grant that I may
not so much seek
to be **consoled** as to **console**;
to be **understood** as to **understand**;
to be **loved** as to **love**.

For it is in **giving** that we **receive**;
it is in **pardoning** that we are **pardoned**;
and it is in **dying** that we are **born to eternal life**.

Prayer of St Francis of Assisi

VISION

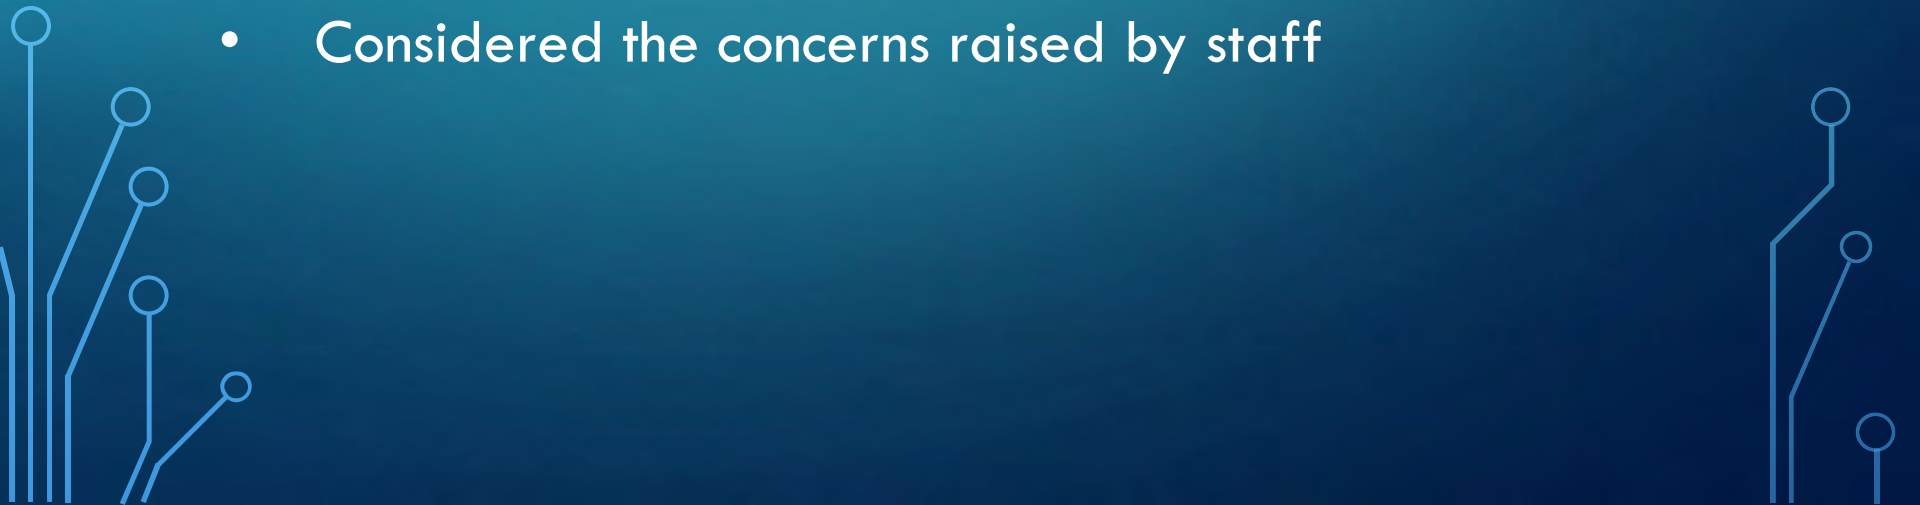

Learning should:

- Be fun and engaging
- Embed skills students will need in the future
- Be personalised
- Be differentiated

TECHNOLOGY HELPS THIS HAPPEN

The Technology Committee was charged with finding a model for one-to-one device provision that:

- Was financially sustaining
 - Would support school-directed teaching and learning practices
 - Was physically manageable, ie by IT Dept
 - Met the identified needs of students
 - Met the identified needs of parents
 - Considered the concerns raised by staff
- 

The slide features a teal background with white decorative circuit-like lines in the corners. These lines consist of straight segments connected by small circles, resembling a network or data flow diagram. The lines are positioned in the top-left, top-right, bottom-left, and bottom-right corners, framing the central text.

And we had to bear in mind:

- Equity
- Cost for parents
- That we value personalised learning
- Servicing
- Insurance
- Not all parents are 'tech savvy' and may need guidance on the type of device

The background is a dark teal gradient. In the corners, there are decorative white circuit-like lines with small circles at the end, resembling a PCB layout. The lines are more prominent in the top-left and bottom-left corners, and less so in the top-right and bottom-right corners.

OUR SOLUTION

Bring
Your
Own
Technology

PRIMARY DEVICES

PC Laptop
(HP, Lenovo, Surface)

Mac Laptop

BYOT

Tablet
(Surface Go, Ipad)

Other
(Phone, iPod)

SECONDARY DEVICES

BYOT IN 2021

- All students will be required to supply their own **LAPTOP** as a **primary device**
- **Laptop** - NOT iPad or Chromebook
- Students will also be able to bring a secondary device if they have one such as a tablet\iPad
- We allow students to connect up to three devices

MINIMUM SPECIFICATIONS

The minimum specifications for PRIMARY DEVICES:

- A laptop (NOT chromebook, iPad or similar)
- i5 processor or M5 or Ryzen 5
- 8 GB RAM – (4GB will not cope with the more intensive software)
- 256GB of storage (or 128GB with external drive or SD card)
- Sufficient battery life to last a school day
- Windows 10 or MAC OS 10.14 (latest version the better)

Basically, a machine capable of running Adobe Suite – the most hardware-hungry software currently used at the College.

YES

YOU CAN BRING YOUR PRIMARY SCHOOL
DEVICE IF IT MEETS THE SPECIFICATIONS

SOFTWARE

Basic software will be provided by the school

- Microsoft Office through O365
- Sophos Anti-Virus

Free software you will may need to download:

- Video editor (iMovie or Shot Cut or Windows Live Moviemaker or similar)
- Image editor (iPhoto or Photo Gallery or Photoshop lite)
- Adobe Creative Cloud or CS6

STORAGE

- Students can save their files to Moodle
- Students have Microsoft One Drive to back up files
- It is recommended that you buy your daughter an external hard drive on which to back up her computer (PC) or create a Time Machine (Mac) or a memory card to extend storage capacity.
- 2Tb hard drives can be purchased for about \$100 these days (4Tb -\$150)

SPARES – IN CASE OF REPAIR DELAYS

- A limited number of spare computers will be available for loan through the IT Department if your laptop needs repairing– need a day’s notice to complete paperwork – but for a **maximum of a month**
- This is not for ‘**forgotten**’ laptops

TECHNOLOGY LEVY

The technology levy (\$500 pa) is **NOT** for computers:

- Internet access (thousands per month)
- Printing (printers, toner, and maintenance)
- Wireless network infrastructure
- Microsoft Office for all students
- Software licensing for some software, eg Adobe Creative Cloud, Sophos Anti-Virus

TECHNOLOGY LEVY CONTINUED

The technology levy (\$500 pa) is **not** for computers:

- Classroom TVs
- IT technicians and help desk personnel
- Servicing arrangements with Datacom
- Server/storage farms

The background is a solid teal color. In the four corners, there are decorative white line-art patterns resembling circuit traces or data paths. These patterns consist of straight lines of varying lengths and angles, ending in small white circles. The patterns are most prominent in the top-left and bottom-left corners, and less so in the top-right and bottom-right corners.

COSTS

- Datacom will go over their pricing for their offerings

The background is a dark teal color with decorative white circuit-like lines in the corners. These lines consist of straight lines and small circles, resembling a printed circuit board layout. The lines are positioned in the top-left, top-right, bottom-left, and bottom-right corners, framing the central text.

WARRANTY AND SERVICING

THIS IS SO IMPORTANT
WE CAN'T STRESS IT
ENOUGH

IMPORTANT CONSIDERATIONS

- When your daughter does not have a computer her learning is negatively impacted.
- Cheaper computers are lucky to last over eighteen months – as a result you may need to buy two devices in three years (3 over 6 years)
- Sending a computer for repairs can take weeks (7 weeks for an insurance claim on a brand new computer)
- Warranties usually are for twelve months only
- The general aim is to keep the laptop operating for at least three years

SERVICING

Richard will go through this in more detail.

If you are using your computer from primary school find out if it still has a servicing agreement.

HAVE A PLAN – keep receipts, register your warranty, keep conditions

OUR FOCUS FOR YOUR DAUGHTER IS HOW SHE IS REPRESENTED IN THE FUTURE

Common Sense Media, Digital Citizenship Poster, Educational Use

MOBILE PHONE POLICY

- Leave phones in lockers during the day
 - Check at lunchtime
 - Special circumstances
- Minimise distractions
- Stimulate positive interactions between students
- Communication at appropriate times

TIMELINE FOR REST OF THE YEAR

- September – Datacom ordering portal opening
- 12 October – Last day to order for delivery in December
- Portal closed for October pricing
- Orders after October may be subject to different prices and delayed production.
- 30 November to 11 December – laptops that have delivered to school – invitation to make set-up appointments will be issued about a week before.
- All other laptops and late orders will be done in the January before school starts (8-22 January) – invitation sent out about 4 January.
- **All appointments will be subject to any COVID restrictions in place at the time.**

Q & A
